PUBLICATIONS 2012-3

SELECTED GRANTS

2013 – 2014. Severe mental health disorders among holocaust-related survivors. Rabbi Israel Miller Fund for Holocaust Education, Research and Documentation -Conference on Jewish Material Claims Against Germany, Primary Investigator

SAMPLE STUDY

- The study objective was to examined the trajectories of the course of schizophrenia.
- Results shown below suggested the course unfolds from progressive deterioration to amelioration over three decades.
- It was concluded that the course of schizophrenia was heterogeneous, yet evolved from deterioration to assume a course consistent with amelioration.
